LIQUOR LAW VIOLATION  
ORIGINAL OFFICER NARRATIVE

On 05-11-2013, between approximately 1400 hours and 1600 hours, Cameron [REDACTED], Christopher [REDACTED], Nicholas [REDACTED] and Aidan Mohr were in possession of and consumed alcohol at [REDACTED] Tempe. Mohr was transported to Tempe St. Luke's Hospital for treatment where he was found to have a BAC of approximately 0.471%.

\*\*Pending\*\*

On 05-11-2013, at approximately 1814 hours, a nurse at St. Luke's Hospital notified Sergeant J. CLICK of a subject who had been brought in to the emergency room and was in critical condition due to complications from overconsumption of alcohol. The nurse reported that the subject had been identified as AIDAN MOHR and was twenty years old. I was in the emergency room at that time, regarding an unrelated call for service and assisted on this investigation with Sergeant CLICK at that time.

Emergency room nurse, KELLY CRACRAFT, reported that MOHR had been brought in to the emergency room lobby at approximately 1600 hours on 05-11-2013, placed in a wheelchair and left by a male subject who brought MOHR in. CRACRAFT told me that the male subject, later identified in the investigation as REID [REDACTED], had left a note on MOHR with [REDACTED]'S name and phone number.

CRACRAFT said that MOHR was wearing only a pair of wet swimming trunks, was unresponsive in the lobby, had vomited, and "was turning blue". CRACRAFT said that MOHR was immediately taken into an emergency room where he was intubated. [REDACTED]

[REDACTED] CRACRAFT said that MOHR'S BAC was approximately 0.471% and his core body temperature was approximately [REDACTED] when he was brought into the ER. MOHR was treated by Doctor LISA DEWINTER while he was in the emergency room.

At that time in the investigation, MOHR was unconscious and unresponsive. MOHR was not able to communicate due being unconscious and [REDACTED] at that time. CRACRAFT said that MOHR had been in that same condition since he had been admitted into the ER. CRACRAFT said that they were able to treat MOHR quickly enough that he was likely to survive, but he would be transferred to the intensive care unit for further treatment.

Officer M. BARBER contacted REID [REDACTED], who had brought MOHR to the

hospital and had arrived in the ER lobby during our investigation. Please see Officer BARBER'S supplement for further information on his interview. As we continued our investigation, ER staff notified us that another male subject was in the ER lobby requesting information about MOHR. I identified that subject as MICHAEL [REDACTED] through his verbal confirmation.

[REDACTED] told me that he had gone to a "house off of Manhattan" Dr. in Tempe where his cousin, Rebecca [REDACTED], was at a party with friends. [REDACTED] told me that his cousin was in town from California and when he went to pick her up in order for her to make her flight back to California at approximately 1600 hours, he saw MOHR "passed out on the couch" in the house. [REDACTED] described that MOHR'S eyes were rolled back in his head, he was not communicating and not able to respond to their attempts to wake him fully. [REDACTED] said that he attempted to give MOHR water to drink, but MOHR choked on the liquid.

[REDACTED] said that MOHR had a bucket next to him where he had vomited an unknown amount of times. [REDACTED] said that he was scared of the condition MOHR was in and wanted to take him to the hospital. [REDACTED] told me that he took MOHR to [REDACTED]'S vehicle to drive to the hospital, but was unsure if he should, so he called BAKER on the phone. [REDACTED] suggested that [REDACTED] bring MOHR to their apartment, located at 1223 E. Vista Del Cerro Dr, Tempe, to determine whether he should be taken to a hospital or "just sleep it off".

[REDACTED] said that [REDACTED] came down to the car, looked at MOHR and immediately decided that MOHR should be taken to the hospital. [REDACTED] said that they then transported MOHR to Tempe St. Luke's hospital. [REDACTED] said they were told MOHR would be taken care of and left their information with hospital staff before leaving to go home. [REDACTED] told me that he wanted to check on MOHR before going out to dinner with his family that evening which is why he was at the hospital during our investigation. [REDACTED] confirmed that he was previously an SAE member, but was no longer active in the fraternity.

[REDACTED] provided information which confirmed the address of the house where MOHR had the alcohol as [REDACTED], Tempe. [REDACTED] said that CAMERON [REDACTED], CHRIS [REDACTED], NICK [REDACTED], TAYLOR [REDACTED], JOE [REDACTED], and RYAN [REDACTED] were people that he recognized that possibly lived at that location. [REDACTED] told me that CAMERON [REDACTED] and CHRIS [REDACTED] were the subjects that MOHR had been drinking with that day, but there were approximately 10-12 people in the house when he went at approximately 1600

hours.

A premise history check of the address at [REDACTED], Tempe, revealed numerous calls for service regarding loud parties, subjects disturbing, theft, fights and other various calls for service. [REDACTED], [REDACTED] and [REDACTED] are identified as the primary residents at that location. [REDACTED] and [REDACTED] were twenty-two years old and [REDACTED] was twenty years old. [REDACTED] reported that the house at that location is also known as "8-Mile house".

Officer BARBER, Sergeant CLICK and I went to the house at [REDACTED], Tempe, to attempt to contact any of the residents for follow-up information. As we approached the front door of the lot, I observed several empty cans of beer and various pieces of litter in the front yard of the house, a beer can in the street away from the house and also several empty beer cans in the front courtyard near the doorway of the house. The front patio gate was open when we arrived and was the only access point to the front doors.

A package for [REDACTED] was left at the base of the staircase which led to the upstairs apartment of the house. We knocked on the door of the house, but there was no answer at that time. We went up the staircase which led to the upstairs apartment and saw several more empty cans and bottles of both liquor and beer. There were empty shot glasses near a couch, a pool was visible in the backyard and a table was near the pool with alcohol bottles on top of it, which appeared to serve as a bar. We were unable to determine which rooms were associated with which subject and did not make contact with anyone at that time.

*the next day*  
On 05-12-2013, at approximately 1430 hours, I responded to Tempe St. Luke's Hospital to follow-up with MOHR. MOHR had been transferred to the Intensive Care Unit over night and his nurse reported that MOHR was in stable condition, conscious and had been taken off intubation. MOHR'S parents, CHRIS and STACY MOHR were in the room with MOHR during the interview with him.

MOHR told me that he had gone to the house, but stated that it was not a party. MOHR said that he had been drinking with SAM [REDACTED] and OLIVIA [REDACTED]. He initially stated that no other people had been present. When he was asked about BERGER, MOHR said that [REDACTED] had been present and they had been involved with a "shot contest" with each other.

MOHR told me that [REDACTED] had driven him to the house at approximately 1400 hours. MOHR said that he drank approximately twenty shots of tequila with [REDACTED] at the house. MOHR confirmed that he and [REDACTED] were both current members of the fraternity SAE. MOHR confirmed that they were also ASU students, who were celebrating finals being completed for the semester. MOHR said that he does not remember much else from that time frame.

A records search confirmed [REDACTED]'S identity and address out of Phoenix. Investigative means identified that [REDACTED] still lived out of Phoenix and confirmed her association with several of the involved subjects. Dispatch contacted Phoenix records which identified a phone number given during a previous arrest for [REDACTED] in that city. I contacted [REDACTED]'S parents through the phone number given, who were able to provide [REDACTED]'s cell phone number.

I contacted [REDACTED] over the phone on 05-12-2013, at approximately 1530 hours. [REDACTED] told me that [REDACTED] was her boyfriend and they had both picked up MOHR from his house and gone to another friend's house, "Molly [REDACTED]" who lived at approximately Rural Rd. and Loma Vista Dr. in Tempe., prior to going to [REDACTED]. [REDACTED] said that at approximately 1400 hours, they arrived at the house. [REDACTED] said that "Zach, [REDACTED], Kristen, and Cody" were at the house at that time. [REDACTED] could not provide further information for any of those individuals, but a vehicle in the driveway the previous day, identified "Cody" as CODY [REDACTED] out of California.

[REDACTED] said that earlier that week, MOHR and [REDACTED] had verbally challenged each other that each other could "drink you under the table". MOHR and [REDACTED] began the shot contest with each other to follow-up with that discussion. [REDACTED] said that MOHR and [REDACTED] took turns pouring tequila for one another. [REDACTED] said that the alcohol was already available at the house and she was unsure of who brought it or purchased it. [REDACTED] stated that she did not believe MOHR or [REDACTED] brought it with them in the vehicle when they arrived.

[REDACTED] described that over an hour period of time, MOHR and [REDACTED] each consumed over fourteen shots of tequila. [REDACTED] said that they did not realize how intoxicated MOHR was until he fell over, knocked over the bar at the house and caused liquor bottles and glass to fall on the floor, where [REDACTED] cut his foot. [REDACTED] said that at that time they did not serve MOHR anything else to drink and called for someone to come pick them up from the house.

[REDACTED] told me that [REDACTED] arrived and assisted with getting MOHR to the

4199-0 LIQUOR LAW VIOLATION

hospital. [REDACTED] told me that she spent the entire afternoon and evening on 05-11-2013 with [REDACTED] at his house, located at [REDACTED] until approximately 2300 hours. [REDACTED] stated that she did not hear anyone knock on the door when she was with [REDACTED] and did not see any officers at the house. [REDACTED] said that she would not have heard anyone knock from the front door of the house because [REDACTED]'S room is upstairs, where the couches and the shot glasses were found in our investigation the previous day. Officer BARBER confirmed that he had knocked on that door, but did not receive a response. I did not confront [REDACTED] with that information at that time.

[REDACTED] began a shift at work at approximately 1600 hours on 05-12-2013 and was not able to provide any further information at that time. [REDACTED] did confirm before she disconnected that [REDACTED] and MOHR are members of the fraternity, SAE. She also confirmed that [REDACTED], MOHR and herself are current students at ASU in Tempe.

I took photographs of the house located at [REDACTED], Tempe. Those photographs were impounded at the Apache Station property room. I also impounded the note that was left with MOHR when he was left at the hospital and my telephonic interview with [REDACTED].

No further information was available at that time. This concluded my participation in this investigation. Please see Officer BARBER'S supplement for further information.
